SPACE TOURS MISSION E. V. A.

The travel group *TUILET TOURISM* plans a space cruise of absolute superlatives. So it sends the space ship *YUZNA* into space with a four-man crew and super computer *E. V. A.* on board to explore vacation destinations no tourist has ever seen before.

As you can imagine, this venture is a thorn on *SPECTACLE TRAVELS'* side, their competition... On its way to the ultimate vacation paradise, the crew of the *YUZNA* encounters jealous police officers, bloodthirsty tour operators, fed-up tourists, giant monkeys, an indestructible tour guide cyborg and aliens who think tourism is the same as terrorism.

The science fiction comedy *SPACE TOURS – MISSION E. V. A.* is an action-packed trip through the last 100 years of the history of film and television – made up of thousands of parodies, pastiches and quotes.

SPACE TOURS – MISSION E. V. A.:
an absolutely no budget production
which definitely surpasses
'Plan 9 From Outer Space'!
